(L) Letter to the editor

- American Railway Bridge & Building Assn.:
Meeting in September, *Sept 30
Why it is needed, *Oct 22
American Railway Engineering Association:
Meeting sets a record, *Apr 17
What membership offers railroad engineer,
*Mar 25
American Swedish Rail System:
Concrete roadbed and fastenings, *May 30
Anchors:
SCL standard practice on merged line, *Jan 20
Armco Steel Corp.:
Culvert cunuing: Design and repairs, *Dec 17
Liner plates cure rock falls in tunnel, *Jan 26
Association of American Railroads:
Size and spacing of wood ties, *July 22
Atchison, Topeka & Santa Fe:
Treats deck timbers on bridges in place, *Feb 32
Ballast:
Ballast care and maintenance, Sept 10E
From steel-furnace slag, *June 22
Keeping sand out (A), Oct 40
Replacing on ballasted-deck (A), Aug 36
Section for ladder tracks (A), Mar 76
Bangor & Aroostock:
Coping with snow in North Country, *Aug 15
Branch Lines:
Inspection of (A), June 36
Bridge and Building Work:
Tools and equipment, Sept 42E
Bridges:
B&O installs longest girders, *June 17
B&B supervisor and fire prevention (A), Dec 35
Computer design of piers, *Nov 24
Concrete ties for timber trestles, *Sept 25
Covered bridges—Can they be saved?, *Feb 27
Deck timbers treated in place, *Feb 32
Effects of E-90 loading (A), May 34
Fastening timber stringers to concrete caps,
*Sept 36
Framing ties for plate girders (A), Feb 46
Frisco photographs its clearances, *Apr 22
Inspection of prestressed-concrete spans (A),
Nov 37
Latest development of in-place treatment, Sept
33E
Long cars and through girders (A), Mar 70
Maintaining signal bridges (A), Apr 30
New one goes around old, *July 26
Obsolete structure cut down with explosives,
*Apr 25
Painting—Where are we headed?, *June 24
Preserving sandblasting results (A), June 29
Repairing expansion rollers, Sept. 36E
Replacing ballast on deck (A), Aug 36
Replacing timber caps with concrete (A), July
34
Research and progress in, *Jan 22
Selection of expansion bearings (A), Sept 48
Selection of piles (A), Jan 42
Should timber decks be waterproofed (A), July
33
Type of waterproofing (A), July 36
Use of weathering steel (A), Oct 42
Using oak ties (A), Aug 39
Buildings:
Advantages of prefabricated concrete (A), Jan
33
Inspection pointers (A), Mar 68
Where to use fiberglass (A), June 34
Chesapeake & Ohio/Baltimore & Ohio:
Installs 'longest' girders, *June 17
Chicago, Burlington & Quincy:
Upgrades its tie-renewal gangs, *Dec 14
Chicago, Milwaukee, St. Paul & Pacific:
Gang nails protect crossing timbers, *July 20
Clearances:
Frisco photographs its clearances, *Apr 22
Cleveland Transit System:
Extends line with welded rail, *Oct 24
Communications:
Make them work for you, Sept 28E
Concrete and Concrete Work:
Adjustments easy on concrete roadbed, *May
30
Concrete ties for timber trestles, *Sept 25
Fastening timber stringers to concrete caps,
*Sept 36
High-speed impact stresses on (A), Jan 23
Prefabricated concrete for buildings (A), Jan 33
Prestressed-concrete span inspection (A), Nov
37
Replacing timber caps (A), July 34
U.S. Crosstie plant in production, *May 26
When to use anchor bolts (A), Feb 35
Conventions and Meetings:
AREA meeting sets a record, *Apr 17
Roadmasters' & B&B meeting, *Sept 30
Speakers tell needs and prospects, *Oct 17
Crossings:
Gang nails protect timbers, *July 20
Safety demands elimination (L), Feb 50
Stockpiling black-top for highways (A), Jan
36
Culverts:
Common causes of failure (A), Sept 60
Culvert cunuing: Design and repairs, *Dec 17
Curves:
Long cars and through girders (A), Mar 70
Merits of long transition (A), Sept 40
Record of wear (A), July 32
Department of Transportation:
DOT proposal portends new era in M/W (E),
May 8
Engineers as seen by A. Scheffer Lang, *May
24
To engineers: Assert yourselves (E), May 8
Derailments:
Clearing up (A), Dec 28
Stopping before they happen (E), Oct 8
Employees:
Another reason for thinking of women (E),
Sept 12
Award 298 and the M/W forces, Aug 22
Centralized B&B vs floating gangs, Sept 41E
DOT to engineers: Assert yourselves (E), May
8
Effect of arbitration award (A), July 36
Engineers as seen by A. Scheffer Lang, *May
24
Is engineering degree necessary? (E), Jan 8
Manpower shortage could get worse (E), Aug
12
Role of M/W men in mechanization (E), Mar
8
Salute to short-line engineers (E), Dec 8
Steps to help the bridge engineer (E), July 8
Watching passing trains (E), Oct 8
Where will we get supervisors? (E), Apr 8
Erie Lackawanna:
How road lays long strings, *Oct 26
Machines lick brush problem, *Aug 24
Explosives:
Used to cut down bridge on Frisco, *Apr 25
Fairmont Railway Motors:
W110 Series C Dual Tamper, Mar 40
Fire:
Old apparatus fills railroad need (E), Mar 8
Responsibility of B&B supervisor (A), Dec 35
Garo Art Metal, Inc.:
Sculptured track spike, *Dec 22
Glued Laminated Timber:
Research and progress in bridges, *Jan 22
Hydraulics:
What test bench did for Reading, *Nov 22
Inspection:
Branch lines (A), June 36
Pointers for building inspection (A), Mar 68
What track inspection should be, Sept 14E
Where to run detector car (A), Apr 32
Jackson Vibrators, Inc.:
Model 4500 surfacing-liner unit, *Mar 38
Model 4500 seen in operation on SCL, *July 24
Joints:
Will longer bars eliminate pull-aparts?, Mar 74
Kershaw Manufacturing Co.:
Announces \$5 million plant expansion, *Nov 42
Tie Injector used by Burlington, *Dec 14
Linde Division, Union Carbide:
Cored-wire electrode for rail-end build-up,
*June 20
Louisville & Nashville:
Cures rock falls in tunnel, *Jan 26
Maintenance of Way:
Burlington upgrades tie-renewal gangs, *Dec 14
Computer system hikes machine output, *Mar
34
Coping with wind-driven sand (A), July 34
Coping with snow in North Country, *Aug 15
Disposing of cut-up ties (A), Sept 34
Distributing ties for gangs (A), Dec 34
DOT proposal portends new era for M/W (E),
May 8
Future historian looks back upon (E), Dec 8
How to improve maintenance, Sept 21E
Improving track despite worn rail (A), Oct 32
Improvements—Where, how?, Nov 26
Is there need for more supervision? (E), Nov
8
Keeping sand out of ballast (A), Oct 40
Keeping shifting sands off the tracks, *Aug 19
Merits of long transition curves (A), Sept 40
Need to spend more on, *Oct 18
Radio and M/W forces, *May 20
Reconciling standards of merged roads, *Jan 19
Some rule books need updating (E), Aug 12
Spike reclamation on the job, *Sept 32
Staff report on Award 298, Aug 22
Stopping derailments before they happen (E),
Oct 8
The importance of track improvements (E),
July 8
Turnouts and good intentions (E), Oct 8
Use of secondhand materials in yards (A), Jan
40
What welded-rail records to keep (A), Feb 38
Where will we get supervisors? (E), Apr 8

Who got the large savings? (E), Apr 8
 Who maintains signal bridges? (A), Apr 30
Management:
 Attitude toward weed control (E), Feb 8
 Matias Equipment Corp.:
 BMNRI-80 Automatic tamper-liner, *Mar 38
 Ballast Cleaner-Undercutter used on MP, *Dec 23
Mechanization:
 Where do we go from here?, *Mar 31
Mergers:
 SCL girds for the future, *Jan 15
Missouri Pacific:
 Computer system hikes machine output, *Mar 34
 Hot, dry climate causes complications on new-line job, *Nov 17
 Push-button plant cuts rail-welding costs, *Feb 30
 Undercutting restores grades to yard, *Dec 23
Motor Cars:
 Are they getting heavier? (E), Feb 8
National Cylinder Gas Division:
 Scan used on Frisco, *Apr 22
New Lines:
 Hot, dry climate causes complications, *Nov 17
Nordberg Manufacturing Co.:
 Spike reclamation on the job, *Sept 32
Osmose Wood Preserving Co.:
 Treat deck timbers in place on Santa Fe, *Feb 32
Painting:
 Preserving results of sandblasting (A), June 19
 Where is bridge painting headed?, *June 24
Penn Central:
 Devises cribber for Joint Straightener, *Jan 27
 Tries out Plasser track-lining machine, *Sept 34
Piers and Foundations:
 Computer design of for UP, *Nov 24
Piles:
 Selection of for bridges (A), Jan 42
Plasser American Corp.:
 Duomatic 06-32L continuous automatic tamper-liner, Mar 39
 Model AL 250 Automatic Lining machine, *Sept 34
Portec, Inc.:
 Opens new plant in Oakbrook, *Nov 42
Prestressed Concrete:
 Inspection of spans (A), Nov 37
 Research and progress in bridges, *Jan 22
 SCL standard practice for ties, *Jan 20
Programming:
 Effect of arbitration award (A), July 36
Pumps:
 What types for B&B crews? (A), Aug 35
Racine Hydraulics, Inc.:
 Ballast cribber for joint straightening, *Jan 27
Radio:
 How it helps M/W forces, *May 20
 Make communications work for you, Sept 28E
Rail:
 Broken from heavy cars (A), May 44
 Corded-wire electrodes for rail-end build-up, *June 20
 Correcting pull-aparts in winter (A), June 28
 Improving track despite worn rail (A), Oct 32
 Keeping record of curve wear (A), July 32
 Merits of surface grinding, Sept 7E
 Where to run detector car (A), Apr 32
Rail Laying:
 How the EL lays long strings, *Oct 26
 Positioning CWR before laying (A), Nov 31
 SCL gang uses two sets of machines, *July 17
Railway Maintenance Corp.:
 Cribber devised for Joint Straightener, *Jan 27
 Datamatic automatic tamper-liner, *Mar 39
Railway Tie Association:
 Size and spacing of wood ties, *July 22
Reading:
 What test bench did for railroad, *Nov 22

Roadmasters Association:
 Meeting in September, *Sept 30
 Why it is needed, *Oct 22
Safety:
 Appliances on machines, Sept 2E
 How to enforce rules (A), Nov 34
 Picking up debris in yards (A), Apr 30
 Safety Bureau lists inadequate maintenance, *Oct 18
 Some rule books need updating (E), Aug 12
 Where to run detector car (A), Apr 32
St. Louis-San Francisco:
 Cuts obsolete bridge down with explosives, *Apr 25
 Photographs its clearances, *Apr 22
Schroeder Brothers Corp.:
 New test bench on Reading, *Nov 22
Seaboard Coast Line:
 Gang uses two sets of machines, *July 17
 Improved tamper seen in operation, *July 24
 Newly merged line girds for future, *Jan 15
Southern:
 Concrete ties for timber trestles, *Sept 25
Southern Pacific:
 New bridge goes in around old, *July 26
 Trouble at Potrero Hill tunnel, *Dec 20
Spikes:
 Reclamation on the job, *Sept 32
 Sculptured spike by Garo Art Metal, *Dec 22
Stations:
 Low or car-floor level platforms (A), June 35
Supervision:
 B&B supervisor and fire prevention (A), Dec 35
 Does it get enough recognition? (E), Sept 12
 How roadmasters keep abreast (A), Oct 43
 Is there need for more (E), Nov 8
 We can point to future leaders (E), Nov 8
 Where will we get supervisors? (E), Apr 8
Surfacing and Lining:
 Track-lining machine keeps moving, *Sept 34
Switch Stands:
 Maintaining run-through stands (A), Apr 36
Tamper, Inc.:
 Model UDEJ2.5D3 Electromatic tamper with Curve Autoliner, *Mar 39
 Thermex Metallurgical, Inc.:
 Used to butt-weld transit line extension, *Oct 24
Ties:
 Burlington upgrades its tie gangs, *Dec 14
 Concrete for timber trestles, *Sept 25
 Disposing of cut-up ties (A), Sept 54
 Distributing for gangs (A), Dec 34
 Framing for deck girders (A), Feb 46
 Kind, size and spacing, Sept 23E
 New concrete-tie plant in production, *May 26
 Standard practices for merged line, *Jan 20
 Uses shock waves in treating oak (F), Aug 44
 Using oak ties on bridges (A), Aug 39
 What size, spacing—wood tie, *July 22
Timber:
 Fastening stringers to concrete caps, *Sept 36
 Gang nails protect crossing timbers, *July 20
 Latest developments of in-place treatment, Sept 33E
 Replacing caps with concrete (A), July 34
 Should timber decks be waterproofed? (A), July 33
 Testing for decay, *Jan 24
 Treats bridge deck in place, *Feb 32
Track:
 Cleaning wind-driven sand from (A), July 34
 How to improve maintenance, Sept 21E
 Improvements—Where, how?, Nov 26
 Improving despite worn rail (A), Oct 32
 Merits of long transition curves (A), Sept 40
 Spike reclamation on the job, *Sept 32
 The importance of improvements (E), July 8
 Track-lining machine keeps moving, *Sept 34
 Undercutting restores grade in yard, *Dec 23
 What inspection should be, Sept 14E
Trackwork:
 Use of rivets where possible (A), May 33

Trestles:
 Concrete ties for timber trestles, *Sept 25
 Replacing timber with steel and concrete, Sept 38E
 Used by MP on new line construction, *Nov 19
Tunnels:
 Adjustments easy with concrete roadbed, *May 30
 Cures rock falls with liner plates, *Jan 26
 Enlarge or daylight? (A), Apr 39
 Frisco photographs its clearances, *Apr 22
 How to stop leaks (A), Nov 32
 Trouble at SP's Potrero Hill tunnel, *Dec 20
 When to use rock bolts (A), Feb 35
Turnouts:
 Maintaining (A), Dec 32
 Maintenance and good intentions (E), Oct 8
Undercutting:
 Restores grades to yard tracks, *Dec 23
Union Pacific:
 Computer design of bridge piers, *Nov 24
U.S. Crosstie, Inc.:
 New manufacturing plant in production, *May 26
Waterproofing:
 Butyl rubber membrane for bridge decks, *Jan 22
 What determines type? (A), July 36
Weed and Brush Control:
 Machines lick brush problem on EL, *Aug 24
 Management attitude toward (E), Feb. 8
 Spray car adjusts dosages, *Feb 28
 What are the trends today?, *Feb 23
Welded Rail:
 Correcting pull-aparts in winter (A), June 28
 How the EL lays long strings, *Oct 26
 Positioning before laying (A), Nov 31
 Push-button plant cuts costs, *Feb 30
 Standard practice on merged line, *Jan 20
 Stretching welded rail (A), Apr 37
 Used for transit-line extension, *Oct 24
 Will long bars eliminate pull-aparts? (A), Mar 74
Welding:
 Cored-wire electrode for rail-end build-up, *June 20
Winter:
 Coping with snow in North Country, *Aug 15
 New ideas in fight against snow, *Aug 26
 Use of "warm-weather" machines (E), Jan 8
Work Equipment:
 Computer system hikes machine output, *Mar 34
 Coping with snow in North Country, *Aug 15
 Machinery—its care and operation, Sept 2E
 Machines lick brush problem on EL, *Aug 24
 Manufacturers forecast dramatic changes, Mar 41
 Modern tamper is springboard to progress, *Mar 38
 New ideas in fight against snow, *Aug 26
 Old fire apparatus fills need (E), Mar 8
 On/off-track machine speeds turnout tamping, *Mar 36
 Parking trucks at night (A), Aug 32
 Parts shipments need zipcode, too (E), May 8
 Replacing engines on (A), June 30
 SCL uses two sets for rail laying, *July 17
 Test bench for hydraulic equipment, *Nov 22
 Tools and equipment for B&B men, Sept 42E
 Track-lining machine keeps moving, *Sept 34
 Trend in weed-spraying equipment, *Feb 24
 Type of pumps for B&B crews (A), Aug 35
 Use "warm-weather" units in winter (E), Jan 8
 What M/W men see ahead in tampers, Mar 44
 When to replace hydraulic hose (A), Apr 34
Yards:
 Maintaining run-through stands (A), Apr 36
 MP restores grades with undercutter, *Dec 23
 Picking up debris (A), Apr 30
 Use of secondhand track materials (A), Jan 40

New Products Index

*Illustrated Item

Abex Corp.:
 Weight-compensating car retarder, *Mar 62
 Aeroquip Corp.:
 FT1013 Hose assembly machine, *July 30
 Aldon Co., The:

Safety sign for car men, *Oct 30
 Allied Steel & Tractor Products, Inc.:
 Model 9000 HO-PAC hydraulic pile hammer, *Nov 30
 Allis-Chalmers Corp.:
 Model SB 2524 Sno-Bee snow thrower, *Oct 30
 American Railroad Curveling Co.:
 Trakchek gage indicator, *Sept 39
 Armo Steel Corp.:
 Hel-Cor helically welded corrugated pipe, *Nov 29
 Baxter & Co., J. H.:
 Heart-Treated treating process for poles, *June 27

Bethlehem Steel Corp.:
 RQ-100B high-strength steel, Mar 52
 Caterpillar Tractor Co.:
 Engine housing for D5 and D6C tractors, *July 30
 Hydraulic blade tip for No. 12F and No. 14F motor graders, *July 30
 Improved No. 120 motor grader, *Aug 30
 Improvements to No. 12F and 14E motor graders, *Aug 39
 New fiberglass canopy for D9G tractor, Mar 67
 966 Series C Wheel loader, *July 29
 Cox Co., W. T.:
 Model C-68 Rail-Road wheel attachment, *Feb 34

Edison Industries, Thomas A.:
Crystalline Type F primary battery, *Mar 62
Elgene Co.:
ERR-10 Switch anti-freeze lubricant, Nov 30

Fairmont Railway Motors, Inc.:
Hydraulic tie remover W115A, *Mar 56
Hydraulic tie shear W114 Series A, *Mar 64
Hy-Rail equipment Series 0306, *Sept. 39
Falcon Safety Products, Inc.:
Fast-Drying Falcon Epoxo coating, June 27

Goodyear Tire & Rubber Co.:
Neothane end posts, bushings, Apr 28

Hayes Track Appliance Co.:
PBF Blue Flag display, *Mar 54
Hogart Manufacturing Co.:
Steelplank for highway crossings, *Mar 52
Holland Co.:
Matisa Model 12-CB-8 undercutter-cleaner, *Dec 26
Homelite:
Model XL-88 circular power saw, *Aug 30
XL-900 series chain saws, *Nov 29

Ilsey, Doubleday & Co.:
Kerlube rail lubricator, *Sept 39

Jackson Vibrators, Inc.:
Model 4500 Surfacing-Liner, *Mar 38
Model 4500 surfacing-liner unit seen in operation on SCL, *July 24

Kalamazoo Manufacturing Co.:
Ballast Equalizer, *Mar 66
"Kal-Trac" brush cutter, *Mar 61
Tie destroyer, Mar 61
Kershaw Manufacturing Co.:
Tie Injector used on Burlington, *Dec. 14

Magnafix, Inc.:
Magnetic-particle testing unit, *Apr 28
Martin Engineering Co.:
P.T.P. (post, tubing and piling) post driver, *May 32
Matisa Equipment Corp.:

Model 150 Compactamper, *Jan 30
Model 12-CB-8 Undercutter-cleaner, Dec 26
Series 80 Tamper-Liner-Leveler, *Sept 39
Melpar, Inc.:
Track geometry measuring system, *Nov 30
Mobil Oil Corp.:
Switch Heet switch heater, *July 29
Morrison Railway Supply Co.:
Damy ballast doors for hopper cars, *Mar 61

National Cylinder Gas Division:
NCG-Amsler Track Inspection System, *Mar 54
Scan structural clearance analyzer, *Mar 66
Nordberg Manufacturing Co.:
Spike-straightening machine, *Sept. 32

Osmose Wood Preserving Co.:
Pile-Gard pile protection, *Jan 32

Paxton-Mitchell Co.:
Model WHL hydraulic crane, *July 30
Plasser American Corp.:
AL 250 Track-Lining Machine, *Mar 54
Model AL 250 Automatic lining machine, *Sept 34
Plasermatic 06-16 Beaver tamper, *Mar 61
Universal Tamper 06-16SLC, *Sept 67

Professional Aids Co.:
Speed-Ruler for parallel lines, *Nov 30
Portec, Inc.:
Poly-Insulated rail joint, *Nov 30

Racine Hydraulics & Machinery, Inc.:
Guide-wheel kit for Anchor Fast, *Jan 30
Model "R" Recording Gauge, *Aug 30
"Plate Boy" ballast sweeper, *Dec 26

Rails Co., The:
Rail-Tec RTS gas switch heater, Mar 63
Railway Maintenance Corp.:
Auto-Spiker, *Mar 61
Car Mover/Front-End loader, *Mar 65
Concrete-Tie Clip applicator, *Mar 52
Rail drill-saw combination, *July 30
Universal AnchorMaster applicator, *July 29
Railway Track-Work Co.:
Model 5720-BP Tie Handler, *Feb 34

Ranco Industrial Products Corp.:
F-174-P Squeeze-Cote blacktop adhesive, *Mar 56
Newgreen non-selective weed killer, *June 27
P-249 Epoxy sealer kits, *Mar 56
Remington Arms Co.:
Model P128 circular saw, *Oct 30
"Pin-Boy" 67 drive tool, *Dec 26
Vibratite concrete vibrator, *Apr 28
Research Products Manufacturing Co.:
Model UR-IV Incinoleet incinerating urinal, *Nov 29

Schroeder Brothers Corp.:
Hydra-Drive hydraulic test bench, *Aug 30
Model LFT In-Tank hydraulic line filter, *May 32
Suburban Propane Gas Corp.:
Propane gas rail heater, *Nov 29
Swiveler Co.:
Model 101 thrust-bearing swivel hook, *Feb 34

Tamper, Inc.:
Closed-circuit TV Indicator System, *Mar 56
Off-Tracking equipment for tampers, *May 32
Tong-type tie nipper for spike driver, *Mar 67
Turntable added to spike driver, *June 27
Templeton, Kenly & Co.:
Charger line of hydraulic pumps, *Oct 30
Thermex Metallurgical, Inc.:
In-track welding of compromise joint, *June 27
Thompson-Haywood Chemical:
Casoron G-10 weed and grass killer, *Jan 30
True Temper Corp.:
Cliploc rail tie clip, *Mar 63

Vapor Corp.:
Safety Flashing Light, Apr 28
Sno Gard switch heater, *Nov 29
Switch Rod Heater, *Mar 66

Wabco, S. & C. Division:
Carryphone III two-way radio, *Apr 28
West Chemical Products, Inc.:
Assault weed killer, Feb. 34
Weolery Machine Co.:
Rail heater, *Mar 65
